4 Months, 3 Weeks and 2 Days Inspired by an anecdote from the period and the general social historic context, it depicts the loyalty of the two friends and the struggles they face. The film is set in Communist Romania in the final years of the Nicolae Ceaușescu era. It tells the story of two students, roommates in a university dormitory, who try to procure an illegal abortion. 4 Months, 3 Weeks and 2 Days (Romanian: 4 luni, 3 săptămâni și 2 zile) is a 2007 Romanian art film written and directed by Cristian Mungiu and starring 4 Months, 3 Weeks and 2 Days (Romanian: 4 luni, 3 săptămâni și 2 zile) is a 2007 Romanian art film written and directed by Cristian Mungiu and starring Anamaria Marinca, Laura Vasiliu, and Vlad Ivanov 00c14786b4

Pregnancy discrimination Discrimination based on using contraception or receiving an abortion, or not doing so, can also qualify as pregnancy discrimination. Convention on the Elimination of All Forms of Discrimination against Women prohibits dismissal on the grounds of maternity or pregnancy and ensures right to maternity leave or comparable social benefits. Pregnancy discrimination may also take the form of denying reasonable accommodations to workers based on pregnancy, childbirth, lactation, and related medical conditions. The Maternity Protection Convention C 183 proclaims adequate protection for pregnancy. Common forms of pregnancy discrimination include not being hired due to visible pregnancy or likelihood of becoming pregnant, being fired after informing an employer of one's pregnancy, being fired after maternity leave, and receiving a pay dock due to pregnancy. notice, a further sum equivalent to one month's wages as compensation, and 10-weeks' maternity leave pay. Pregnancy discrimination has also been examined to have an indirect relationship with the decline of a mother's physical and mental health. Pregnant workers who feel they have been discriminated Pregnancy discrimination is a type of employment discrimination that occurs when expectant women are fired, not hired, or otherwise discriminated against due to their pregnancy or intention to become pregnant 00c14786b4

In human prenatal development, fetal development begins from the ninth week after fertilization (which is the eleventh week of gestational age) and continues until the birth of a newborn. 00c14786b4 == Trans men == 00c14786b4 Pregnancy is divided into three trimesters of

Transgender pregnancy This is possible for those born with female reproductive systems. Transgender men and nonbinary people who are or wish to become pregnant face social, medical, legal, and psychological concerns. fertility. Transgender men and nonbinary people who are or wish to become pregnant face social, medical, legal, and psychological concerns. As uterus transplantations Transgender pregnancy is the gestation of one or more embryos or fetuses by transgender people. However, transition-related treatments may impact fertility. As uterus transplantations are currently experimental, and none have successfully been performed on trans women, they currently cannot become pregnant 00c14786b4

In the 28-year period between 1982 and 2010, there were "30 [reported] cases of maternal brain death (19 case reports and 1 case series)." In 12 of those cases, a viable child was delivered via cesarean section after extended somatic support. However, according to Esmailzadeh, et al. there is no widely accepted protocol to manage a brain dead mother "since only a few reported cases are found in the medical literature." Moreover, the mother's wishes are rarely, if ever, known, and family should be consulted in developing a care plan. 00c14786b4 == Series overview == 00c14786b4 Conception usually occurs following vaginal intercourse, but can also occur through assisted reproductive technology procedures. A pregnancy may end in a live birth, a miscarriage, an induced abortion, or a stillbirth. Childbirth typically occurs around 40 weeks from the start of the last menstrual period (LMP), a span known as the gestational age; this is just over nine months. Counting by fertilization age, the length is about 38 weeks. Implantation occurs on average 8-9 days after fertilization. An embryo is the term for the developing offspring during the first seven weeks following implantation (i.e. ten weeks' gestational age), after which the term fetus is used until the birth of a baby. 00c14786b4 Mungiu and cinematographer Oleg Mutu shot it in Bucharest and other Romanian locations in 2006. After making its world premiere at Cannes, 4 Months, 3 Weeks and 2 Days made its Romanian debut on 1 June 2007, at the Transilvania International Film Festival. It opened to critical acclaim, and was noted for its minimalism and intense themes. 00c14786b4

Pregnancy A multiple pregnancy involves more than one offspring, such as with twins. weeks of gestational age. Most airlines allow pregnant women to fly short distances at less than 36 weeks, and long distances at less than 32 weeks. Pregnancy is the time during which one or more offspring gestates inside a woman's uterus 00c14786b4

There are two subjects often depicted in Western narrative art, or history painting, where pregnancy is an important part of the story. These are the unhappy scene usually called Diana and Callisto, showing the moment of discovery of Callisto's forbidden pregnancy, and the biblical scene of the Visitation... 00c14786b4 Alice temporarily dumps her college boyfriend Josh. She then moves to New York City to be a paralegal and live with her sister, Meg, an OB/GYN who has no interest in having a baby of her own or being in a relationship. Alice befriends wild Australian co-worker Robin, who enjoys partying and one-night stands, and local bartender Tom, who embraces the bachelor lifestyle and hooks up with several women, including Alice. Tom meets Lucy at his bar when she uses his Internet for free; she explains she is looking for "the one" using various dating sites. 00c14786b4 The predominant British, Irish, and Commonwealth spelling is foetus, except in medical

usage, where fetus is preferred. The -oe- spelling is first attested in 1594 and arose in Late Latin by analogy... 00c14786b4 The word fetus (plural fetuses or rarely, the solecism feti) comes from Latin fētus 'offspring, bringing forth, hatching of young'. The Latin plural fetūs is not used in English; occasionally the plural feti is used in English by analogy with second-declension Latin nouns. 00c14786b4 == Past cases == 00c14786b4 Alison Lapper was born on 7 April 1965 in Burton-on-Trent, Staffordshire. She was born without arms and with shortened legs, a condition called phocomelia. She was institutionalized in her infancy, and is still distant from her relatives. When she was fitted with artificial limbs, she felt that the aim was not to help her, but to make her look less disconcerting to others. She abandoned them, finding life far easier without external aids. 00c14786b4

Maternal somatic support after brain death Depending upon how many weeks a neonate is premature, he or she could spend anywhere between two and four months in the NICU. Bluebook. S. study of 252 brain dead patients from 1990–96, only 5 (2. NICU costs generally Maternal somatic support after brain death occurs when a brain dead patient is pregnant and her body is kept alive to deliver a fetus. Even among brain dead patients, in a U. 8%) cases involved pregnant women between 15 and 45 years of age. It occurs very rarely internationally 00c14786b4

The film was theatrically released in the United States on February 12, 2016, by Warner Bros. Pictures. It grossed \$112 million worldwide and received mixed reviews from critics. 00c14786b4 The film won three awards at the 2007 Cannes Film Festival, including the Palme d'Or. Signs and symptoms of early pregnancy may include missed periods, tender breasts, morning sickness (nausea and vomiting), hunger, implantation bleeding, and frequent urination. Pregnancy may be confirmed with a pregnancy test. Methods of contraception are used to avoid pregnancy. 00c14786b4 == Early life == 00c14786b4 Alice meets with Josh... 00c14786b4 == Etymology == 00c14786b4 She left Chailey Heritage School, Sussex, at the age of 17, and moved to London. She then attended the Queen Elizabeth's Foundation for Disabled People, in Banstead, Surrey until the age of 19, where she

learned to drive. She completed both 'O' and 'A'-levels in art at Sutton College of Learning for Adults, before pre-foundation and foundation courses at Heatherley School of Fine Art. 00c14786b4

Pregnancy in art A research study conducted by Pierre Bourdieu in 1963 found that the great majority of 693 French subjects thought that a photo of a pregnant woman could not, by definition, be beautiful. published in 1774 and based on extensive study of late pregnant corpses; how he obtained so many was the subject of suspicion at the time and subsequently Pregnancy in art covers any artistic work that portrays pregnancy. This probably persists even in contemporary culture; despite several recent artworks depicting heavily pregnant women, one writer was "astonished at the shortage of visual images. Historically, married women were at some stage of pregnancy for much of their life until menopause, but the depiction of this in art is relatively uncommon, and generally restricted to some specific contexts. of pregnant women in public visual culture". In art, as in life, it is often unclear whether an actual state of pregnancy is intended to be shown. A common visual indication is the gesture of the woman placing a protective open hand on her abdomen 00c14786b4
