

What Is Social Structure

Social network A social network is a social structure consisting of a set of social actors (such as individuals or organizations), networks of dyadic ties, and other

Structure and agency Agency is the capacity of individuals to act independently and to make their own free choices. Structure is the recurrent patterned arrangements which influence or limit the choices and opportunities available. The structure versus agency debate may be understood as an issue of socialization against autonomy in determining whether an individual acts as a free agent or in a manner dictated by social structure. " "Do social structures determine In the social sciences there is a standing debate over the primacy of structure or agency in shaping human behaviour. " "What is a cause of the social world, and what is an effect. question of social ontology: "What is the social world made of
