Russ Altman informatics in 2014. He became full professor in 2004, and was chair Russ Biagio Altman is an American professor of bioengineering, genetics, medicine, and biomedical data science (and of computer science, by courtesy) and past chairman of the bioengineering department at Stanford University. After a year of post-doctoral research, he joined the faculty as assistant professor in 1992. He is also an associate director and senior fellow at the Stanford Institute for Human-Centered Artificial Intelligence f510694613

Piled Higher and Deeper was first published in The Stanford Daily, the student newspaper at Stanford University, in October 1997. The newspaper had put out a call for comics and Cham, a student and teaching assistant at the time, discussed ideas for comics with his brother and friends. Cham's brother, Jaime, suggested there should be a comic about grad school "because that's when the real pain begins". Cham had no formal art training and had never tried drawing comics before but his comic was accepted. Cham created the website a few weeks later. Cham continued the strip while completing his PhD and later while... f510694613

N. Ravichandran (professor) He is currently a professor at IIM Ahmedabad in the area of operations. from Annamalai University and holds a PhD from Indian Institute of Technology, Madras f510694613

The MCAT score and GPA of MD-PhD matriculants are often higher than MD only matriculants. f510694613

Piled Higher and Deeper As of 2017, the strip's website had 6 million visitors in the previous year. "Only when you don't need them". "A very serious matter". Retrieved 2010-06-24. Archived Piled Higher and Deeper (also known as PhD Comics) is a discontinued newspaper and webcomic strip produced from 1997 to 2021. The series was written and drawn by Jorge Cham, and follows the lives of several grad students. First published in 1997 when Cham was a grad student himself at Stanford University, the strip deals with issues of life in graduate school, including the difficulties of scientific research, the perils of procrastination, and the complex student-supervisor relationship.
