

National Seating And Mobility

== Objectives == 47e6bad349 The oval course was the only one of its kind in Japan used for competitive racing. It was a low-banked, 1.549 mi (2.493 km) egg-shaped course, with turns three and four being much tighter... 47e6bad349

Switch Mobility It is a subsidiary of Indian company Ashok Leyland. Switch Mobility (Optare until 2020) is a British bus manufacturer based in Sherburn-in-Elmet, North Yorkshire. It is a subsidiary of Indian company Ashok Switch Mobility (Optare until 2020) is a British bus manufacturer based in Sherburn-in-Elmet, North Yorkshire. The company is responsible for the EV operations of the group with Ashok Leyland focusing on its core business of diesel-powered vehicles as well as work on alternative fuels like compressed natural gas (CNG), liquefied natural gas (LNG) and hydrogen 47e6bad349

Generally excluded from this legal category are electric bicycles (that are considered to be a type of bicycle); electric motorbikes and scooters (that are treated as a type of motorcycle or moped); and powered mobility aids with 3 or 4 wheels on which the rider sits (which fall within regulations covering powered mobility scooters). 47e6bad349 National Express gained its first regional rail contracts in February 2013 and commenced operations on 13 December 2015. While the Bayerische Eisenbahngesellschaft awarded the company a separate contract to operate the Nuremberg S-Bahn system in January 2015, this decision was strongly opposed by the German national train operator Deutsche Bahn (DB), and National Express Germany opted to withdraw its bid in October 2016 due to the legal challenge's disruption. Nevertheless, the company was awarded parts two and three of the Rhein-Ruhr-Express in June 2015, which National Express Germany commenced between June 2019 and December 2020. 47e6bad349 Wheelchairs come in a wide variety of formats to meet the specific needs of their users. They may include specialized seating adaptations, and individualized controls, and may be specific to particular activities, as with sports wheelchairs and beach wheelchairs. The most widely recognized distinction is between motorized wheelchairs, where propulsion is provided by batteries and electric motors, and manual wheelchairs, where the propulsive force is provided either by the wheelchair user or occupant pushing the wheelchair by hand (self-propelled), by someone else pushing from the rear using the handles, or pushing from the side using a handle attachment. 47e6bad349

Personal transporter) is any of a class of compact, mostly recent (21st century), motorised micromobility vehicle for transporting an individual at speeds that do not normally exceed 25 km/h (16 mph). transporter (also powered transporter, personal electric vehicle (PEV), personal mobility device, etc.) is any of a class of compact, mostly recent (21st century) A personal transporter (also powered transporter, personal electric vehicle (PEV), personal mobility device, etc. Many newer versions use recent advances in vehicle battery and motor-control technologies. They include electric skateboards, e-scooters, self-balancing unicycles, Segways, and motorised scooters. They are growing in popularity, and legislators are in the process of determining how these devices should be classified, regulated and accommodated during a period of rapid innovation 47e6bad349

Motorized wheelchair An early motorized A motorized wheelchair, also known as a powerchair, electric wheelchair, electronic wheelchair, electric-powered wheelchair, and electronic-powered wheelchair, is a wheelchair that is propelled by means of an electric motor (usually using differential steering) rather than manual power. Motorized wheelchairs are useful for those unable to propel a manual wheelchair or who need to use a wheelchair over long distances or on terrain that would otherwise be fatiguing in a manual wheelchair. used not just by people with 'traditional' mobility impairments, but also by people with cardiovascular and fatigue-based conditions. They may also be used not just by people with 'traditional' mobility impairments, but also by people with cardiovascular and fatigue-based conditions

== Speedway == History == The road course's most notable event is the Japanese motorcycle Grand Prix which is currently held every year. The track also currently hosts rounds in the domestic Super Formula Championship and Super GT series each year. All franchised train operating companies in Great Britain must accept the Railcard and offer discounts under terms set out in the Railways Act 1993. The Railcard is managed by Rail Delivery Group. It is aimed at people who have the most difficulty using rail for a reason relating to their disability. Its purpose is to encourage people to use the train and to reduce the cost for those who need to be accompanied by a carer.

Mahindra Last Mile Mobility Limited As a part of Mahindra & Mahindra, they now sell the XUV 400, BE 6 and XEV 9e under the Mahindra branding, while electric commercial vehicles still use the Last Mile Mobility branding. The company sold electric vehicles in different segments - the electric sedan eVerito, the electric commercial vehicle eSupro (passenger and cargo), and the Treo range of low maintenance, lithium-ion battery-powered three-wheelers. also known as Mahindra Last Mile Mobility Limited, formerly known as Mahindra Electric Mobility Limited (2016-2023) and Reva Electric Car Company (2010-2016) Mahindra Electric, also known as Mahindra Last Mile Mobility Limited, formerly known as Mahindra Electric Mobility Limited (2016-2023) and Reva Electric Car Company (2010-2016), was an Indian company based in Bangalore that designed and manufactured compact electric vehicles. After the acquisition, the company launched the electric hatchback e2o in 2013. Reva was acquired by the Indian conglomerate Mahindra & Mahindra in May 2010. The company's first vehicle, the REVAi electric car, was available in 26 countries with 4,000 versions sold worldwide by mid-March 2011

Siemens Venture The Venture cars will also be used on Amtrak Airo trainsets. The cars entered service with Brightline in 2018 and with Amtrak Midwest (services funded by Illinois, Michigan, Missouri, and Wisconsin) in 2022. is a type of locomotive-hauled passenger railroad car built by Siemens Mobility for the North American market. The cars are derived from the Siemens Viaggio Comfort cars used in Europe, with adaptations for North American operations. They have also been ordered by Amtrak for national and other state-supported routes (including those in California, Washington, Oregon, New York, Pennsylvania, Massachusetts, Maine, Virginia, North Carolina, and Vermont), Via Rail, and Ontario Northland. The cars are derived from the Siemens Viaggio Siemens Venture is a type of locomotive-hauled passenger railroad car built by Siemens Mobility for the North American market

The first personal transporter was the Autoped, a stand-up scooter with a gasoline engine made from 1915 to 1922. Engine-powered scooters and skateboards reappeared in the 1970s... 47e6bad349 == History == 47e6bad349

Priority seat a safe and enjoyable journey. In most cases, there is no regulation to restrict the use of priority seats, but rather an expectation to offer one's seat to those in need. Priority seats can be found on various public transportation channels, including trains, buses, and trams. The phrase "Please offer your seat to anyone in need" is often displayed beside the seat. Such passengers, including the elderly and people with mobility obstacles, may face special inconveniences and difficulties Priority seats are seats in public transport vehicles that have been designated for elderly, disabled, pregnant, sick, and injured passengers, or those carrying babies, to ride public transport with an equal degree of access and comfort as other passengers 47e6bad349

Disabled Persons Railcard Passenger doors were too narrow and the fixed seating layout did not give wheelchair users space to manoeuvre. travel in the main passenger area. When wheelchair The Disabled Persons Railcard is a concessionary fare scheme in the United Kingdom giving eligible passengers with disabilities benefits on the National Rail network including a 1/3 discount on fares 47e6bad349

The card is available as a one-year validity card for £20 and as a three-year validity card for £54. The Railcard holder can take another adult with them at the same discount rate. 47e6bad349

National Express Germany to 100 mph and have been furnished with interiors designed for accessibility and comfort, providing both first and standard-class seating along with multi-purpose National Express Germany is a railway operator in Germany. It is a wholly owned subsidiary of the British transport company Mobico Group 47e6bad349

During January 2022, National Express was awarded an emergency contract to replace Abellio GmbH in the operation of services in North Rhine-Westphalia; a long-term contract covering the same services followed one year later. 47e6bad349 The Sanskrit grammarian Pāṇini (circa 5th century BCE India... 47e6bad349 == History == 47e6bad349

Wheelchair Wheelchairs provide mobility, postural support, and greater independence for people who cannot walk or who have difficulty walking, enabling them to move around, participate in everyday activities, and live

life on their own terms. disabilities, or age-related health conditions. It is used when walking is difficult or impossible due to illnesses, injury, disabilities, or age-related health conditions. Wheelchairs provide mobility, postural support, and greater independence for people who cannot walk or who have A wheelchair is a mobilized form of chair using two or more wheels, a footrest, and an armrest usually cushioned

Under the principle of "Barrier Free Environment", the idea of "priority seats" was first introduced in northern Europe. Providing unimpeded, effortless access and an ideal living environment to all people is the final goal. Over the past centuries, the idea of priority seats has spread to Asian countries such as Japan, Taiwan, and Korea, in which a cultural emphasis on politeness encourages the young and able-bodied to yield their seats to those in need. Failure to do so would be regarded as disrespectful. Countries such as Australia, Malaysia, Singapore, and China have similar traditions... After being rebranded from Optare to Switch Mobility in November 2020, it announced plans in 2021 to set up a plant in India for its electric vehicle business. Later, it acquired the EV division from parent company Ashok Leyland via a slump sale of 2.4 billion rupees (~£23 million). == Card and discounts == Switch Mobility has two subsidiary companies. The first subsidiary is Switch Mobility Automotive Ltd, which brings together Ashok Leyland's Indian based EV operations with the expertise of the UK-based bus manufacturing division. The second subsidiary is named OHM Global Mobility Private Ltd which provides Mobility as a Service (eMaaS) solutions in India. == History == In July 2022, there were over 228,000 Disabled Persons Railcards in circulation, increasing to 375,027 by October 2025.
