Several countries regulate tampons as medical devices. In the United States, they are considered to be a Class II medical device by the Food and Drug Administration (FDA). They are sometimes used for hemostasis in surgery. f2bac6ecd0 The term comes from journalist Michael Kinsley, who said, "A gaffe is when a politician tells the truth – some obvious truth he isn't supposed to say." The term "political gaffe" may be used to describe an inadvertent statement made by a politician, who believes the statement to be true, while having not fully analyzed the consequences of publicly stating it. Another definition is a statement made when the politician privately believes it to be true, realizes the dire consequences of saying it, and yet inadvertently utters it in public. Barack Obama has defined press usage of the term as referring to a statement that inadvertently reveals "ignorance, carelessness, fuzzy thinking, insensitivity, malice, boorishness, falsehood, or hypocrisy – or is simply deemed

to veer sufficiently far from the conventional wisdom to make said candidate vulnerable to attack". f2bac6ecd0 Surgery f2bac6ecd0 Pessaries come in different shapes and sizes, so it is important that individuals be fitted for them by health care professionals to avoid any complications. However, there are a few instances and circumstances that allow pessaries to be purchased without a prescription or without seeking help from a health care professional. Some side effects may occur if pessaries are not sized properly or regularly maintained, but with the appropriate care, pessaries are generally safe and well tolerated. f2bac6ecd0
