

Botanical Name Of Coffee

== Terminology == ef5cceaca3 in Sri Lanka). It is renowned for its collection of orchids. The garden includes more than 4000 species of plants, including orchids, spices, medicinal plants and palm trees. Attached to it is the "National Herbarium of Sri Lanka". The total area of the botanical garden is 147 acres (0.59 km²), at 460 meters above sea level, and with a 200-day annual rainfall. It is managed by the Department of national botanic gardens. ef5cceaca3 Coffee production begins when the seeds from coffee cherries, the *Coffea* plant's fruits, are separated to produce unroasted green coffee beans. The "beans" are roasted and then ground into fine particles. Coffee is brewed from the ground roasted beans, which are typically steeped in hot water before being filtered out. It is usually served hot, although chilled or iced coffee is common. Coffee can be prepared and presented in a variety of ways, e.g., espresso, French press, caffè latte, or already-brewed canned coffee. Sugar, sugar substitutes, milk, and cream are often added and change the flavor. ef5cceaca3 Botanical gardens are often run by universities or other scientific research organizations, and usually have associated herbaria and research programmes in plant taxonomy or some other aspect of botanical science. In principle, their role is to maintain documented collections of living plants for the purposes of scientific research, conservation, display, and education... ef5cceaca3

List of coffee varieties These unique traits are what producers use to select breeds when developing crops. Coffee varieties are the diverse subspecies derived through selective breeding or natural selection of coffee plants. While there is tremendous variability encountered in both wild and cultivated coffee plants, there are a few varieties and cultivars that are commercially important due to various unique and inherent traits such as disease resistance and fruit yield. While there is tremendous variability Coffee varieties are the diverse

subspecies derived through selective breeding or natural selection of coffee plants. Therefore, at a micro level, breed selection is critical to the success of a producer and is one of the key components of cup quality ef5cceaca3

== History == ef5cceaca3 == History == ef5cceaca3 Though coffee has become a global commodity, it has a history tied to food traditions around the Red Sea. The earliest reports of coffee drinking pertain to the plant's use among the Sufis of Yemen in southern Arabia in the middle of the 15th century. Up to the end of the 17th century, most of the world's coffee was imported from... ef5cceaca3

Bogor Botanical Gardens It is currently operated by the National Research and Innovation Agency. It is currently The Bogor Botanical Gardens (Indonesian: Kebun Raya Bogor) is a botanical garden located in Bogor, Indonesia, 60 km south of central Jakarta. The geographic position of Bogor means it rains almost daily, even in the dry season. The garden is located in the city center and adjoin the presidential palace compound of Istana Bogor. This makes the garden an advantageous location for the cultivation of tropical plants. It covers an area of 87 hectares (210 acres) and contains 13,983 different kinds of trees and plants of various origin. The Bogor Botanical Gardens (Indonesian: Kebun Raya Bogor) is a botanical garden located in Bogor, Indonesia, 60 km south of central Jakarta ef5cceaca3

Botanical garden There may be glasshouses or shadehouses with special collections such as tropical plants, alpine plants, or other exotic plants that are not native to the local region. It may contain specialist plant collections such as cacti and other succulent plants, herb gardens, or plants from particular parts of the world. A botanical garden or botanic garden is a garden with a documented collection of living plants for the purpose of scientific research, conservation, display A botanical garden or botanic garden is a garden with a documented collection of living plants for the purpose of scientific research, conservation, display, and education. Plants in larger gardens are often labelled with their botanical names and additional information ef5cceaca3

After its discovery in Ethiopia, it was sent to the Tengeru (now Lyamungu) Coffee Research Station in Tanzania.

In 1953, plants successfully cultivated at Lyamungu as VC-496 were taken to Centro Agronómico Tropical de Investigación y Enseñanza (CATIE) in Costa Rica and recorded as accession T2722. From there, CATIE distributed it throughout Central America. In 2005, The Peterson family of Boquete, Panama, entered a Geisha coffee into the Best Of Panama competition. It won the competition and sold for a then-record price of US\$350/pound (US\$770/kilogram); in 2017, a lot of natural Geisha from Hacienda La Esmeralda established...

Coffee is grown in three regions of India with Karnataka, Kerala and Tamil Nadu forming the traditional coffee growing region, followed by the new areas developed in the non-traditional areas of Andhra Pradesh and Odisha in the eastern coast of the country and with a third region comprising the states of Assam, Manipur, Meghalaya, Mizoram, Tripura, Nagaland and Arunachal Pradesh of Northeastern India, popularly known as "Seven..."

Most are at least partly open to the public, and may offer guided tours, public programming such as workshops, courses, educational displays, art exhibitions, book rooms, open-air theatrical and musical performances, and other entertainment.

Coffee bean A few coffee cherries, referred to as "peaberries" contain a single seed; they make up around 10% to 15% of all coffee beans. Like Brazil nuts (a seed) and white rice, coffee beans consist mostly of endosperm.

The seeds are referred to as beans because of their appearance, though they are not true beans. This fruit is often referred to as a coffee cherry, but unlike the cherry, which A coffee bean is a seed from the *Coffea* plant and the source for coffee. This fruit is often referred to as a coffee cherry, but unlike the cherry, which usually contains a single pit, it most commonly contains two seeds with their flat sides together. It is often claimed that peaberries are superior to normal beans, but there is little hard evidence to support this. A coffee bean is a seed from the *Coffea* plant and the source for coffee

While there are many varieties labeled gesha (or geisha), the Panamanian Geisha has a distinct and verifiable genetic fingerprint. Outside Panama, Geisha is also widely cultivated in Malawi.

Turkish coffee Turkish coffee (Turkish: Türk kahvesi) is a style of coffee prepared in a pot called a cezve using very finely ground coffee beans without filtering. The drink appears under different names across the Middle East, the Balkans, and the Caucasus. The Turkish coffee (Turkish: Türk kahvesi) is a style of coffee prepared in a pot called a cezve using very finely ground coffee beans without filtering ef5cceaca3

From Yemen, coffee spread to Mecca and the wider Arabian Peninsula, and by the early 16th century it had reached Cairo, Damascus, and Istanbul. Debates over its permissibility arose in Muslim society, but it soon became a central part of urban social life. ef5cceaca3 Up to the end of the 17th century, the Yemeni port of Mocha was the world's sole gateway for coffee, but as demand grew, cultivation spread to other parts of the world. One of the earliest cultivations of coffee in the New World was when Gabriel de Clieu brought coffee seedlings to Martinique in 1720, from which it spread to other Caribbean islands such as Saint-Domingue and also to Mexico. By 1788, Saint-Domingue supplied half... ef5cceaca3

Coffee production in India A, Slovenia and Austria. There are about 250,000 coffee growers in the country; 98% of them are small growers. As of 2009, Indian coffee made up just 4. Most of the export is shipped through the Suez Canal. Coffee production in India is dominated in the hill tracts of South Indian states, with Karnataka accounting for 71%, followed by Kerala with 21% and Coffee production in India is dominated in the hill tracts of South Indian states, with Karnataka accounting for 71%, followed by Kerala with 21% and Tamil Nadu (5% of overall production with 8,200 tonnes). 5% of the global production, being the 7th largest producer of coffee. Almost 80% of Indian coffee is exported; 70% is bound for Germany, Russia, Spain, Belgium, Libya, Poland, Jordan, Malaysia, U. Italy accounts for 20. 37% of the exports. S. Indian coffee is said to be the finest coffee grown in the shade rather than direct sunlight anywhere in the world ef5cceaca3

Royal Botanic Gardens, Peradeniya In 2016, the garden was visited by 1. Department of national botanic gardens. The groundwork for a botanical garden was formed by Alexandar Moon in 1821. He used the garden for

coffee and cinnamon Royal Botanic Gardens, Peradeniya are about 5. It is near the Mahaweli River (the longest river. 2 million locals and 400,000 foreign visitors. 5 km to the west of the city of Kandy in the Central Province of Sri Lanka ef5cceaca3

At a macro level, the viability of the coffee industry as a whole is dependent upon breed selection. Already, the majority of coffee produced originates from producers using selected breeds. For this reason, breed selection is an important aspect of sustainability within coffee production. ef5cceaca3 Through Mediterranean trade routes, coffee entered Europe in the mid-16th century, first in Italy and later in other regions. Coffee houses were established in Western Europe by the late 17th century, especially in Holland, England, and Germany. ef5cceaca3 The two most economically important varieties of coffee plants are the arabica and the robusta, accounting for approximately 60% and 40% of the coffee produced worldwide, respectively. Arabica beans contain 0.8–1.4% caffeine and robusta beans contain 1.7–4.0% caffeine. As coffee is one of the world's most widely consumed beverages, coffee beans are a major cash crop and an important export product, accounting for over 50% of some developing nations' foreign exchange earnings. In 2023 the largest producer of coffee and... ef5cceaca3 == Preparation == ef5cceaca3

Geisha (coffee) Gesha coffee, sometimes referred to as Geisha coffee, is a variety of coffee tree that originated in the Gori Gesha forest, Ethiopia, though it is now Gesha coffee, sometimes referred to as Geisha coffee, is a variety of coffee tree that originated in the Gori Gesha forest, Ethiopia, though it is now grown in several other nations in Africa, Asia, and the Americas. It is widely known for its unique flavor profile of floral and sweet notes, its high selling price, and its exclusivity as its demand has increased over the years ef5cceaca3

Founded in 1817 by the order of the government of the Dutch East Indies, the garden thrived under the leadership of many renowned botanists including Johannes Elias Teijsmann, Rudolph Herman Christiaan Carel Scheffer, and Melchior Treub. Since its foundation, the Bogor botanical garden has served as a major research

center for agriculture and horticulture. It is the oldest botanical garden in Southeast Asia. ef5cceaca3

Coffee Dark-colored and bitter, coffee has a stimulating effect on humans due to its caffeine content; however decaffeinated coffee is also commercially available. There are also various coffee substitutes. Coffee is a beverage brewed from roasted, ground coffee beans. Dark-colored and bitter, coffee has a stimulating effect on humans due to its caffeine content; Coffee is a beverage brewed from roasted, ground coffee beans ef5cceaca3

History of coffee Wild coffee plants originated in Ethiopia, while the beverage itself has its roots in Yemen, where it was harvested, roasted and brewed; Sufi Muslims in the 15th century used it to aid concentration during night prayers. Wild coffee plants originated in Ethiopia, while the beverage itself has its roots in Yemen, where it was The history of coffee spans many centuries. The history of coffee spans many centuries ef5cceaca3

There is considerable confusion as to which term to use when speaking about coffee subspecies. For the sake of clarity, within this article the terms will be used in accordance with loose guidelines put forth by the Specialty Coffee Association of America: ef5cceaca3
