Ixodes holocyclus and gut contents into the host. It is usually found in a 20-kilometre wide band following the eastern coastline of Australia. Within that range, *Ixodes holocyclus* is the tick most frequently encountered by humans and their pets. Because the same area includes Australia's most densely populated regions, bites on people, pets and livestock are relatively common. It can cause paralysis by injecting neurotoxins into its host. Application of methylated spirit, nail polish remover, turpentine or tea-tree oil is thought to irritate the tick and make *Ixodes holocyclus*, commonly known as the Australian paralysis tick, is one of about 75 species in the Australian tick fauna and is considered the most medically important 1f1b3173f7

Zazi underwent weapons and explosives training at an al-Qaeda training camp in Pakistan in 2008. On September 9, 2009, he drove from his home in Aurora, Colorado, to New York City, intending to detonate explosives on the New York City subway during rush hour as one of three coordinated suicide "martyrdom" bombings. Spooked, however, by surveillance from U.S. intelligence, and warned by a local imam that the authorities were inquiring about him, he abruptly flew back to Colorado. He was arrested days later. 1f1b3173f7 Many of SNL's ad parodies have been featured in prime-time clip shows over the years, including an April 1991 special hosted by Kevin Nealon and Victoria Jackson, as well as an early 1999 follow-up hosted by Will Ferrell that features his attempts to audition for a feminine hygiene commercial. In late 2005 and in March 2009, the special was modernized, featuring commercials created since the airing of the original special. 1f1b3173f7 The film opens with a voice-over by Don, who states that in life and relationships, "anything can happen." 1f1b3173f7 == # == 1f1b3173f7

Environmental impact of pharmaceuticals and personal care products [citation needed] In nail salons, employees can be exposed to dozens of

chemicals found in nail polish and nail polish removers. [3]. More than twenty million tons of PPCPs are produced every year. PPCPs include substances used by individuals for personal health or cosmetic reasons and the products used by agribusiness to boost growth or health of livestock. The European Union has declared that pharmacological residues with the potential for contamination of water and the soil are "priority substances". Nail polishes have many ingredients The environmental effects of pharmaceutical and personal care products (PPCPs) has been of concern since at least the 1990s 1f1b3173f7

Food Lion It was independently operated until it was acquired by the Belgian conglomerate Delhaize Group in 1974. It later expanded to many locations across North Carolina. The mascot has been Leo the Food Lion since January 17, 1997. The company responded Food Lion is an American regional supermarket chain headquartered in Salisbury, North Carolina, that operates over 1,000 supermarkets in 10 states: Delaware, Georgia, Kentucky, Maryland, North Carolina, South Carolina, Pennsylvania, Tennessee, Virginia, and West Virginia. The chain employs over 82,000 people. Food Lion has been owned by Ahold Delhaize since 2016, following several mergers and acquisitions. It was founded in 1957 as Food Town, a single grocery store in Salisbury. repackaging expired meats with new expiration dates, and the use of nail polish remover to remove the expiration dates from dairy item packages. In 1983, the company changed its name and branding to Food Lion to allow it to expand into regions where Food Town was already in use by unrelated stores 1f1b3173f7
