

Head Cavitation 40k Head Only Replace

for some reason whenever I edit a question it duplicates the content at the bottom of the page instead of editing the original? Are the developers having a bit of april fools fun with us?--205.188.116.74 00:14, 1 April 2006 (UTC) ad589f0915

Wikipedia:Reference desk/Archives/Science/April 2006 This is called cavitation and the air will expand massively in the negative pressure since there = April 1 =. the negative pressure and air will enter the xylem tube ad589f0915

History of radiation protection As a result, the study of radiation damage also became a part of this history. Even The history of radiation protection begins at the turn of the 19th and 20th centuries with the realization that ionizing radiation from natural and

artificial sources can have harmful effects on living organisms. radiation. Patient safety is ensured if the recommended limits for avoiding cavitation and overheating are observed, see also Safety Aspects of Sonography ad589f0915

== is this supposed to be funny? == ad589f0915 While radioactive materials and X-rays were once handled carelessly, increasing awareness of the dangers of radiation in the 20th century led to the implementation of various preventive measures worldwide, resulting in the establishment of radiation protection regulations. Although radiologists were the first victims, they also played a crucial role in advancing radiological progress and their sacrifices will always be remembered. Radiation damage caused many people to suffer amputations or die of cancer. The use of radioactive substances in everyday life was once fashionable, but over time, the health effects became known. Investigations into the causes of these effects have led to increased awareness of protective measures. The dropping of atomic bombs during World War II brought about a drastic change in attitudes towards radiation. The effects of natural cosmic radiation, radioactive substances... ad589f0915
