Reclamation of the territory became government policy under the dictatorial regime of Francisco Franco, and this policy has remained in place under successive governments following the Spanish transition to democracy. The Gibraltarians themselves reject any such claim and no political party or pressure group in Gibraltar supports union with Spain. In a referendum in 2002 the people of Gibraltar rejected a joint sovereignty proposal on which Spain and the United Kingdom were said to have reached "broad agreement". The British Government now refuses to discuss sovereignty without the consent of the Gibraltarians...

Socioeconomic status and memory alter the brain, while memory focuses on how those changes in the brain are stored and recalled. These children are at risk for

many disadvantages in life, including deficits in memory processing, as well as problems in language development. Socioeconomic status can differ cross-culturally, but is also commonly seen within cultures themselves. Socioeconomic status (SES) is a measurement of social standing based on income, education, and other factors. It has the ability to store information about events and experiences that occur constantly. Experiences shape the way memories form, so major stressors on socioeconomic status can impact memory development. In Canada, most children grow up in agreeable circumstances; however, 8. Personal status law in Lebanon Those attending wished to focus on the individuality of Lebanese citizens, and thus end the pigeon-holing which personal status law relies on. There have In Lebanon, personal status law refers to the system under which each citizen is governed by specific laws and subject to specific obligations, corresponding to their legally recognized religion. Instead of a common or unified civil personal status law, Lebanon uses 15 legal frameworks and religious courts to represent the 18 officially recognized sects, and the law operates under the premise that every citizen, even an atheist, belongs to one such sect. It affects large aspects of daily life for Lebanese citizens, especially in the realms of marriage and family law, including child custody and (especially for Muslim sects) inheritance 80b1adab2b

Do you approve of the principle that Britain and Spain should share sovereignty over Gibraltar Gibraltar, a British Overseas Territory, located at the southern tip of the Iberian Peninsula, is the subject of a territorial claim by Spain. British sovereignty over Gibraltar was confirmed in later treaties signed in Seville (1729) and the Treaty of Paris (1783). It was captured in 1704 during the War of the Spanish Succession (1701–1714). Britain and Spain should share sovereignty over Gibraltar. Spain later attempted to recapture the territory during the thirteenth siege (1727) and the Great Siege (1779–1783) 80b1adab2b

Political status of Taiwan The political status of Taiwan is a longstanding geopolitical subject focusing on the sovereignty of the island of Taiwan and its associated islands. The geopolitical dispute is also a pivotal subject in China–United States relations and China–Japan relations. The The political status of Taiwan is a longstanding geopolitical subject focusing on the sovereignty of the island of Taiwan and its associated islands. The PRC's claim is based on the theory of state succession, whereby it deems itself the regime that replaced the ROC as the sole legitimate government of China upon its establishment in 1949, and thus it denies the sovereignty of the ROC in Taiwan under its one China principle. Though never having control of Taiwan, the Chinese Communist Party (CCP)-led People's Republic of China (PRC) claims it as an inalienable province of China. The dispute stems from the alleged retrocession of Taiwan from the Empire of Japan to the Republic of China (ROC) in 1945, and the ROC government's retreat from mainland China to Taiwan as the result of the Chinese Civil War in 1949. The Taiwan Area since then has become the major territorial base of the ROC and which has exercised state authority there independently 80b1adab2b

Carsharing Unlike traditional car rental, collecting and returning the vehicle is often self-service through a mobile app and without entering an office or agency. In some models a commercial company owns the fleet and offers it for member use (business-to-consumer). It also often differs in the length of hire and the cost

structure. Car sharing has emerged as an alternative to Carsharing or car sharing (AU, NZ, CA, TH, & US) or car clubs (UK) refers to several models of car rental or car use, where people rent cars for short periods of time, often by the hour. Coordinated management of meaning In essence, CMM highlights how communication fosters interpersonal connection and open conversation among individuals or groups, and can be applicable across multiple academic fields and social scenarios. " Others add that, within CMM, "human communication is viewed as a flexible, open and mutable process evolving in an ongoing joint interaction, which enables movement, shifts and evolving ways with each other". According to the textbook Introducing Communication Theories, CMM examines "how individuals establish rules for creating and interpreting the meaning and how those rules are enmeshed in a conversation where meaning is constantly being coordinated. management of meaning (CMM), in the social sciences, provides an understanding of how individuals create, coordinate and manage meanings in their process Coordinated management of meaning (CMM), in the social sciences, provides an understanding of how individuals create, coordinate and manage meanings in their process of communication 80b1adab2b

Verificationism Typically expressed as a criterion of meaning, it rejects traditional statements of metaphysics, theology, ethics and aesthetics as meaningless in terms of conveying truth value or factual content, reducing them to emotive expressions or "pseudostatements" that are neither true nor false. known as the verification principle or the verifiability criterion of meaning, is a doctrine in philosophy which asserts that a statement is cognitively Verificationism, also known as

The logical positivists sought to formulate a scientifically-oriented theory of knowledge in which ambiguities associated with traditional metaphysical language would be negated or minimised, and empirical testability would be enforced as the paradigm of serious inquiry. 80b1adab2b In common parlance, "socioeconomic status" is synonymous with social class. However, academics distinguish social class from socioeconomic status, using the former to refer to one's relatively stable cultural background and the latter to refer to one's current social and economic situation which is consequently more changeable over time. 80b1adab2b When analyzing a family's SES, the household income and the education and occupations of its members are examined, whereas for an individual's SES only their own attributes are assessed. Recently, research has revealed a lesser-recognized attribute of SES as perceived financial stress, as it defines the "balance between income and necessary expenses". Perceived financial stress can be tested by deciphering whether a person at the end of each month has more than enough, just enough, or not enough money or resources. However, SES is more commonly used to depict an economic difference in society as a whole. 80b1adab2b
