A state called yoga nidra is mentioned in the Upanishads and the Mahabharata, while a goddess named Yoganidrā appears in the Devīmāhātmya. Yoga nidra is linked to meditation in Shaiva and Buddhist tantras, while some medieval hatha yoga texts use "yoganidra" as a synonym for the deep meditative state of samadhi. These texts, however, offer no precedent for the modern technique of guided meditation. That derives from 19th- and 20th-century Western "proprioceptive relaxation", as described by practitioners such as Annie Payson Call and Edmund Jacobson. b4a35448aa
