

Do Cats Break Wind

== Origins == Wind turbines are manufactured in a wide range of sizes, with either horizontal or vertical axes, though horizontal is most common. Commercial power production horizontal-axis turbines usually have three blades, upwind of their towers. Vertical-axis turbines can be made to varied designs, including the "eggbeater" Darrieus, the giromill with straight blades, the Savonius with scoops suitable for rooftops and ships, airborne with wings tethered to the ground, floating (mounted on a floating platform), and various unconventional... Gone with the Wind was popular with American readers from the outset and was the top American fiction bestseller in 1936 and 1937. As of 2014, a Harris poll found it to be the second favorite book of American readers, just behind the Bible. More than 30 million copies have been printed worldwide.

Break a leg of the good luck wish, "break a leg". Though a similar and potentially related term seems to have first existed in German without theatrical associations, the English theatre expression with its luck-based meaning is first attributed in the 1930s or possibly 1920s. An ironic or non-literal saying of uncertain origin (a dead metaphor), "break a leg" is commonly said to actors and musicians before they go on stage to perform or before an audition. The leg used to open the curtains The term is also said to refer to the leg used to wind the tabs (the curtains) "Break a leg" is an English-language idiom used in the context of theatre or other performing arts to wish a performer "good luck"

The film portrays a fictionalised account of the life of Japanese aeronautical engineer Jiro Horikoshi, in particular his engineering career from his time at the University of Tokyo in 1923 to the first test flight of the Mitsubishi Ka-14 on 4 February 1935. Juxtaposed with the historical events is a fictional romance of Horikoshi's, inspired by the similarly named semi-autobiographical novel *The Wind Has Risen* by Tatsuo Hori. The film was originally intended to be Miyazaki's final feature film, before Miyazaki reversed his decision and eventually directed *The Boy and the Heron*. == Johnny Mathis version == The single was released on November 11, 1957. At the time, *Billboard* magazine had three pop singles charts: Best Sellers in Stores, Most Played by Jockeys and Top 100 Sides. "Wild Is the Wind" made its first chart appearance in the issue dated December 16, 1957...

Wind turbine As of 2024[update], hundreds of thousands of large turbines A wind turbine is a device that converts the kinetic energy of wind into electrical energy. Wind turbines are an increasingly important source of intermittent renewable energy, and are used in many countries to lower energy costs and reduce reliance on fossil fuels. One study claimed that, as of 2009, wind had the "lowest relative greenhouse gas emissions, the least water consumption demands and the most favorable social impacts" compared to photovoltaic, hydro, geothermal, coal and gas energy sources. A wind turbine is a device that converts the kinetic energy of wind into electrical energy. As of 2024, hundreds of thousands of large turbines, in installations known as wind farms, were generating over 1,136 gigawatts of power, with 117 GW added each year

In the series, which is set c. 1895–1912, after the cinematograph was patented and during the late Qing dynasty, Sagwa has fun in her day-to-day life while learning and teaching valuable life lessons. The show is notable for its setting and messages about family obligations and loyalty. The show is also intentionally cross-cultural, with the theme song in both English and Chinese. Wild Is the Wind producer Hal B. Wallis signed Mathis to record the title song as part of the opening credits. Mathis recorded it on October 1, 1957, with Ray Ellis conducting the orchestra and Mitch Miller and Al Ham producing.[A] Mathis recorded "Wild Is the Wind" with a flexible sense of meter, rushing some words as if they were speech. In 1919, German physicist Albert Betz showed that for a hypothetical ideal wind-energy extraction machine, the fundamental laws of conservation of mass and energy allowed no more than 16/27 (59.3%) of the wind's kinetic energy to be captured. This Betz's law limit can be approached by modern turbine designs which reach 70 to 80% of this theoretical limit. The series was developed and produced for television by executive producers George Daugherty and Michel Lemire, and producers David Ka Lik Wong and Leon G. Arcand. == Aerodynamics == As of December 2023, the total installed wind power nameplate generating capacity in the United States was 147,500 megawatts (MW), up from 141,300 megawatts (MW) in January 2023, although total energy generation declined slightly due to weather conditions. This capacity is exceeded only by China and the European Union. Thus far, wind power's largest growth in capacity was in 2020, when 16,913...

Wind turbine design Wind turbine design is the process of defining the form and configuration of a wind turbine to extract energy from the wind. An installation consists Wind turbine design is the process of defining the form and configuration of a wind turbine to extract energy from the wind. An installation consists of the systems needed to capture the wind's energy, point the turbine into the wind, convert mechanical rotation into electrical power, and other systems to start, stop, and control the turbine

The original Japanese edition was released in three parts, which make up the three "books" of the single-volume English-language version. The series won the Silver Plaque at the Chicago International Film Festival for Children's Film in 2001, as well as winning an Outstanding...

Wind power in the United States In 2019, wind power surpassed hydroelectric power as the largest renewable energy source in the U. The federal government and many state governments have policies that guide and support the development of the industry, including tax credits and renewable portfolio standards. 48% of electricity in the United States. The average wind turbine generates enough electricity in 46 minutes to power the average American home for one month. In March and April of 2024, electricity generation from wind exceeded generation from coal, once the dominant source of U. S. S. electricity, for an extended period for the first time. 4 terawatt-hours were generated by wind power, or 10. Wind power is a branch of the energy industry that has expanded quickly in the United States over the last several years. In 2025, 464. In 2025, 464. 4 terawatt-hours Wind power is a branch of the energy industry that has expanded quickly in the United States over the last several years

The series aired from September 3, 2001, to October 5, 2002, running for one season and 40 episodes, with reruns continuing to air until February 2009, when the show was officially removed from the lineup along with *Zoboomafoo* and the *Berenstain Bears*.

The Wind Rises (The Wind Has Risen) is a 2013 Japanese animated historical drama film written and directed The Wind Rises

(Japanese: 風立ちぬ, Hepburn: Kaze Tachinu; lit. 'The Wind Has Risen') is a 2013 Japanese animated historical drama film written and directed by Hayao Miyazaki based on his 2009 manga of the same name. Produced by Studio Ghibli and distributed by Toho, the film stars the voices of Hideaki Anno, Miori Takimoto, Hidetoshi Nishijima, Masahiko Nishimura, Morio Kazama, Keiko Takeshita, Mirai Shida, Jun Kunimura, Shinobu Otake, and Nomura Mansai. The Wind Rises (Japanese: 風立ちぬ, Hepburn: Kaze Tachinu; lit 8f1575e7b8

Gone with the Wind (novel) The story is set in Clayton County and Atlanta, both in Georgia, during the American Civil War and Reconstruction era. This historical novel features a coming-of-age story, with the title taken from the poem Non Sum Qualis eram Bonae Sub Regno Cynarae by Ernest Dowson. It depicts the struggles of young Scarlett O'Hara, the spoiled oldest daughter of a well-to-do plantation owner, who must use every means at her disposal to claw her way out of poverty following Sherman's destructive "March to the Sea". The story is set in Clayton County and Atlanta, both in Georgia Gone with the Wind is a novel by American writer Margaret Mitchell, first published in 1936. Gone with the Wind is a novel by American writer Margaret Mitchell, first published in 1936 8f1575e7b8

Wild Is the Wind (song) His version reached the top 40 on the record charts in Billboard magazine. The songwriters were nominated for an Academy Award for Best Song in 1958. Johnny Mathis recorded the song for the "Wild Is the Wind" is a song written by Dimitri Tiomkin and Ned Washington for the 1957 film of the same name. "Wild Is the Wind" is a song written by Dimitri Tiomkin and Ned Washington for the 1957 film of the same name. Johnny Mathis recorded the song for the film, and it was released as a single in November 1957 8f1575e7b8

The song has been recorded many times by many performers. The best known versions are those recorded by Nina Simone (from her 1966 album of the same name) and by David Bowie (from his 1976 album Station to Station). 8f1575e7b8 == Plot == 8f1575e7b8 Gone with the Wind is a controversial reference point for subsequent writers of the South, both black and white. Scholars at American universities refer to, interpret, and study it in their writings. The novel has been absorbed into American popular culture. 8f1575e7b8 In addition to the blades, design of a complete wind power system must also address the hub, controls, generator, supporting structure and foundation. Turbines must also be integrated into power grids. 8f1575e7b8

The Wind-Up Bird Chronicle The American translation The Wind-Up Bird Chronicle (風立ちぬ, Nejimakidori Kuronikuru) is a novel published in 1994–1995 by Japanese author Haruki Murakami. The Wind-Up Bird Chronicle (風立ちぬ, Nejimakidori Kuronikuru) is a novel published in 1994–1995 by Japanese author Haruki Murakami. The American translation and its British adaptation, dubbed the "only official translations" (English), are by Jay Rubin and were first published in 1997. For this novel, Murakami received the Yomiuri Literary Award, which was awarded to him by one of his harshest former critics, Kenzaburō Ōe 8f1575e7b8

== Publication history == 8f1575e7b8 Released on 20 July 2013 in Japan, The Wind Rises was the highest-grossing Japanese film of 2013. Though it caused some political controversy and criticism in... 8f1575e7b8

Kit for Cat The title is a pun on the phrase "tit for tat"; Sylvester would appear in another cartoon with a similar title, Trip for Tat. The short was released on November 6, 1948 and features Elmer Fudd and Sylvester. him he will be held responsible for the next disturbance. Sylvester sets a wind-up mouse toy loose and the kitten chases it, following it into a mouse hole Kit for Cat is a 1948 Looney Tunes cartoon directed by Friz Freleng 8f1575e7b8

Sagwa, the Chinese Siamese Cat part of a royal family of cats who have the ability to write with their tails. She and her siblings, along with various other cats and Fu-Fu the bat, have Sagwa, the Chinese Siamese Cat, or simply Sagwa, is a children's animated television series based on the children's book The Chinese Siamese Cat, created by Amy Tan which aired on PBS Kids, produced by Canada-based animation studio CinéGroupe and Sesame Workshop 8f1575e7b8

Mitchell received the Pulitzer Prize for Fiction... 8f1575e7b8
