Pandas (software) ratio as a percentage of total calories): $\text{df}[\text{'carb_pct'}] = \text{df}[\text{'carb_g'}] * 4 / \text{df}[\text{'calories'}] * 100$ $\text{df}[\text{'fat_pct'}] = \text{df}[\text{'fat_g'}] * 9 / \text{df}[\text{'calories'}] * 100$ Pandas (styled as pandas) is a software library written for the Python programming language for data manipulation and analysis. It is free software released under the three-clause BSD license. In particular, it offers data structures and operations for manipulating numerical tables and time series. The name is derived from the term "panel data", an econometrics term for data sets that include observations over multiple time periods for the same individuals, as well as a play on the phrase "Python data analysis". Wes McKinney started building what would become Pandas at AQR Capital while he was a researcher there from 2007 to 2010 2038b9f6c5

Italian dressing widely. The creamy Italian variant adds milk products and stabilizers. North American style Italian salad dressing is thought to date back to 1941 in Framingham, Massachusetts. Both dressings are often bought bottled or prepared by mixing oil and vinegar with a packaged flavoring mix consisting of dehydrated vegetables and herbs. Florence Hanna, the daughter of Italian In American cuisine, Italian dressing is a vinaigrette-type salad dressing that consists of water, vinegar or lemon juice, vegetable oil, chopped bell peppers, sugar or corn syrup, herbs and spices (including oregano, fennel, dill and salt) and sometimes onion and garlic 2038b9f6c5

Secret Eaters It is broadcast on Channel 4 and presented by Anna Richardson. At the end of the week, they are confronted by the presenter about what they eat, shown footage of them eating and told how many calories they have eaten throughout the course of the week. There has been 22 episodes spanning three series. They are also given dietary advice by expert Lynne Garton about what they have eaten. presenter about what they eat, shown footage of them eating and told how many calories they have eaten throughout the course of the week. They are also given Secret Eaters is a British documentary television series about overeating. In each episode, Anna Richardson meets a group of people; usually a couple, friends or a family, who are overweight. They are then filmed in their homes for a week and followed around by 'private investigators' Cameron Gowlett and Duncan Mee who monitor their every move and record everything they eat 2038b9f6c5

Convenience food By introducing lower calorie foods, changing product Convenience food (also called tertiary processed food) is food that is commercially prepared (often through processing) for ease of consumption, and is usually ready to eat with little to no preparation.

Food scientists now consider most of these products to be ultra-processed foods and link them to poor health outcomes. It may also be easily portable, have a long shelf life, or offer a combination of such convenient traits. expanded its mission in May 2010 by announcing that it intends to reduce the amount of calories in foods. Convenience foods include ready-to-eat dry products, frozen food such as TV dinners, shelf-stable food, prepared mixes such as cake mix, and snack food 2038b9f6c5

The development of Pandas introduced into Python many comparable features of working with DataFrames that were established in the R programming language. The library is built upon another library, NumPy. 2038b9f6c5 == History == 2038b9f6c5

Why We Get Fat Taubes is a controversial figure whose work often goes against accepted scientific, governmental, and popular tenets such as that obesity is caused by eating too much and exercising too little and that excessive consumption of fat, especially saturated fat in animal products, leads to cardiovascular disease. To Do About It is a 2010 book by controversial journalist Gary Taubes. Following Taubes's 2007 book Good Calories, Bad Calories, in which he argues that the modern diet's inclusion of too many refined carbohydrates is a primary contributor to the obesity epidemic, he elaborates in Why We Get Fat on how according to him people can change their diets. Another AQR employee, Chang She, joined the effort... 2038b9f6c5 Developer Wes McKinney started working on Pandas in 2008 while at AQR Capital Management out of the need for a high performance, flexible tool to perform quantitative analysis on financial data. Before leaving AQR, he was able to convince management to allow him to open source the library in 2009. 2038b9f6c5 Harriet A. Hall, has criticized Taubes for selectively quoting the meta-analysis, and, writing for Science-Based Medicine, states that although it is possible some of Taubes' hypotheses may be borne out by subsequent evidence, his idea that carbohydrate restriction can lead to weight loss independently of calorie restriction is "simply wrong".

2038b9f6c5 In his book, Moss cites examples from Kraft, Coca-Cola, Lunchables, Frito-Lay, Nestlé, Oreos, Capri Sun, and many more companies, where scientists calculate the combination of sugar, fat and salt ("bliss point") for convenience food that is guaranteed to have an optimal appeal for the customer. 2038b9f6c5 Despite its name, Italian dressing is not used in Italy, where salad is normally dressed with olive oil, vinegar or lemon juice, salt, and sometimes balsamic vinegar at the table, and not with a premixed vinaigrette. In North American cuisine, Italian dressing is also used as a marinade for meat or vegetables, stir fries, and sandwiches. Pasta salads sometimes include Italian dressing. The caloric content of Italian dressing varies widely. 2038b9f6c5
