

Icar Research Complex For Eastern Region

Chaac-Camaxtli region Camaxtli Patera is on the eastern edge of the Chaac-Camaxtli region (15°N,136°W). At least 10 distinct volcanic centers are located in the region, making it a volcanically active region on Io's surface. " The largest volcanic structure here is the Chaac Patera (105 km X 48 km). It is named after the Aztec god of thunder The Chaac-Camaxtli region is a volcanic region on Jupiter's moon Io, located from approximately 5 to 20°N and 130 to 160°W in its anti-Jovian hemisphere. Most of the volcanism here is expressed as paterae, which range in size from circular to elliptical. This area is defined on the west by Chaac Patera, and on the east by Camaxtli Patera. The paterae found in the Chaac-Camaxtli region are Chaac, Balder Patera, Grannos, Ababinili, Ruaumoko, Steropes, Camaxtli, Tien Mu, Utu, and Mentu. It consists mainly of the hummocky bright plains that occupy the surface. tidal flexing of Io by Jupiter. A patera is defined by the International Astronomical Union as "irregular or complex craters with scalloped edges

Central Agricultural University Priyoday Kar Central Agricultural University (CAU) is a central agricultural university located at Lamphelpat, Imphal, in the Indian state of Manipur. national institute of repute; viz. It is one of three central agricultural universities in India recognised by the Indian Council of Agricultural Research. , Anup Das; Director, ICAR Research Complex for Eastern Region, Patna, Bihar, February, 2023 onwards [4];2

== Objectives == Evolving climate resilient agricultural technologies that would increase farm production and productivity vis-à-vis continuous management of natural and manmade resources constitute an integral part of sustaining agriculture in the era of climate change. The four modules of NICRA - natural resource management, improving soil health, crop production and livestock - is aimed making the farmers self-reliant.

Indrapuri Barrage 2011. ICAR Research Complex for Eastern Region. "Performance Evaluation of Patna Main Canal" (PDF). Houlton, Sir John, Bihar, the Indrapuri Barrage (also known as the Sone Barrage) is across the Son River in Rohtas district in the Indian state of Bihar. Retrieved 25 June 2011

The university was established by an act of Parliament, the Central Agricultural University Act, 1992 (No. 40 of 1992). The Act came into effect on 26 January 1993, following notification by the Department of Agricultural Research and

Education (DARE), and the university became operational on 13 September 1993 with the appointment of its first vice-chancellor, M. P. Singh. a47095ffa1 == Observations == a47095ffa1

National Initiative on Climate Resilient Agriculture The mega project has three major objectives of strategic research, technology demonstrations and capacity building. Assessment of the impact of climate change simultaneous with formulation of adaptive strategies is the prime approach under strategic research across all sectors of agriculture, dairying and fisheries. Research (IIVR), Varanasi ICAR Research Complex for Eastern Region, Ranchi National Institute of Plant Biotechnology, New Delhi National Centre for Integrated National Innovations in Climate Resilient Agriculture (NICRA) was launched during February 2011 by the Indian Council of Agricultural Research (ICAR) with the funding from the Ministry of Agriculture, Government of India a47095ffa1

Ovda Regio The crustal plateau serves as a place to hold the localized tessera terrains in the planet, which makes up roughly 8% of Venus' surface area. 1998. doi:10. 1006/icar. Tessera, Venus: Implications for Lithosphere Evolution". 132 (2): 321-343. 321H. The kinematic evolution of crustal plateaus on Venus has been a debated topic in the planetary science community. Bibcode:1998Icar. Icarus. 5897. Understanding its complex evolution is expected to contribute to a better knowledge of the geodynamic history of Venus. Romeo, Ignacio; Ovda Regio is a Venusian crustal plateau located near the equator in the western highland region of Aphrodite Terra that stretches from 10°N to 15°S and 50°E to 110°E. It is named after a Marijia forest spirit that can appear as both male and female. 132. Known as the largest crustal plateau in Venus, the regio covers an area of approximately 15,000,000 square kilometres (5,800,000 mi²) and is bounded by regional plains to the north, Salus Tessera to the west, Thetis Regio to the east, and Kuanja as well as Ix Chel chasmata to the south a47095ffa1

Bhimtal The ICAR-Central Institute of Coldwater Fisheries Research (ICAR-CICFR) is based Bhimtal ([b^hi:m'ta:l]; Devanagari: भिमतल, Kumaoni: [b^hi:m'ta:l]) is a municipal town, administrative tehsil headquarters, and intermontane lacustrine basin situated in the Nainital district of the northern Indian state of Uttarakhand. is also a centre for scientific research in fisheries and sericulture. Located in the Outer Lesser Himalayas at an altitude of 1,370 metres (4,495 feet) above mean sea level, the town lies 22 kilometres east of Nainital, 21 kilometres north of the railway terminus at Kathgodam, and 30 kilometres north of the regional commercial centre of Haldwani a47095ffa1

List of institutions of higher education in Jharkhand ICAR Research Complex for Eastern Region (ICAR-RCER), Patna. "Tribal In Jharkhand there is 1 central university, 7 Central autonomous Institutions,1 National Law University, 12 state universities, 2 deemed universities, 18 state private universities and 4 State Government Engineering Institutions. "Research Center, Ranchi". and Job Updates. Retrieved 2020-04-15. Retrieved 2021-08-01 a47095ffa1

Sir John Houlton, the veteran British administrator, who spent many years in the state, describes the Son as follows, "After passing the steep escarpments of the Kaimur range, it flows straight across the plain to the Ganges. For much of this distance it is over two miles - and at one point, opposite Tilothu - three miles wide. In the dry weather there is vast expanse of sand, with a stream not more than a hundred yards wide, and the hot west winds pile up the sand on the east bank, making natural embankments. After heavy rain in the hills even this wide bed cannot carry the waters of the Son and disastrous floods in Shahabad, Gaya, and Patna are not uncommon". a47095ffa1

Sone River ICAR Research Complex for Eastern Region. Archived (PDF) from the original on 26 March 2012. The river is also mentioned in Valmiki Ramayans's Balkand where Ram. Retrieved Sone River, also spelt Son River, is a perennial river located in central India. "Performance Evaluation of Patna Main Canal" (PDF). Laxman along with Vishvamitra is crossing the river to further go north towards Ganga. 1949. India's oldest river bridge Koilwar Bridge over the Sone River connects Arrah with Patna. It originates near Amarkantak Hill in Pendra (Gaurela-Pendra-Marwahi district), Chhattisgarh and finally merges with the Ganges river near Maner in Patna, Bihar. Sone river is famous for its sand across country. The Sone River is the second-largest southern tributary of the Ganges after the Yamuna River. Multiple dams and hydro-electric projects run on its course towards the Ganges a47095ffa1

Nehru Setu ICAR Research Complex for Eastern Region. 2011. Archived (PDF) from the original on 26 March 2012. "Performance Evaluation of Patna Main Canal" (PDF). Retrieved Nehru Setu is a railway bridge across the Son River, connecting Dehri-on-Son and Son Nagar, in Bihar a47095ffa1

To enhance the resilience of Indian agriculture covering crops, livestock and fisheries to climatic variability and climate change through development and application of improved production and risk management technologies. a47095ffa1

Tessera (Venus) 132. Multiple models of tessera formation exist and further extensive studies of Venus's surface are

necessary to fully understand this complex terrain. Tessera, Venus: Implications for Lithosphere Evolution". It is not currently clear if this is due to a variety in the interactions of Venus's mantle with regional crustal or lithospheric stresses, or if these diverse terrains represent different locations in the timeline of crustal plateau formation and fall. Diverse types of tessera terrain exist. 132 (2): 321–343. Bibcode:1998Icar. Icarus. Tesserae often represent the oldest material at any given location and are among the most tectonically deformed terrains on Venus's surface. 1998. 5897. S2CID 18119376 A tessera (plural tesserae) is a region of heavily deformed terrain on Venus, characterized by two or more intersecting tectonic elements, high topography, and subsequent high radar backscatter. 321H. 1006/icar. doi:10 a47095ffa1

== The Son river == a47095ffa1 Pioneer Venus Orbiter detected regions of anomalous radar properties and high backscatter. Using SAR imaging, the Venera 15 and Venera 16 orbiters revealed these regions to be chaotically tiled terrain, which Soviet scientists named "паркет" (parquet, pronounced par-key'yet), later known as "tesserae." The most recent data concerning tessera terrain comes from the Magellan Mission, in which the majority... a47095ffa1 == Exploration == a47095ffa1 The Sone Barrage at Indrapuri is 1,407 metres (4,616 ft) long and is the fourth longest barrage in the world. It was constructed by Hindustan Construction Company (HCC), the company which constructed the 2,253 m long Farakka Barrage, the longest in the world. Construction of the barrage was taken up in the 1960s and it was commissioned in 1968. a47095ffa1 == Course == a47095ffa1 This region is full of features that provide clues to the volcanism, tectonism, and magmatic processes on Io. Similar concepts happening on Io have been thought to have occurred in Earth's past, and some terrestrial analogues occur today. a47095ffa1 The physical geography of the settlement is structured around Bhimtal Lake, a natural freshwater body covering 47.8 hectares, representing the largest lake by surface area in the Kumaon division. The lake features a natural volcanic bedrock island situated 91 metres from the southern dam embankment that accommodates a municipal public aquarium accessible by passenger ferry boats. In October 2023, the Government of Uttarakhand formally elevated Bhimtal from a Nagar Panchayat to a Class-III Nagar Palika Parishad. The town serves as an administrative hub hosting Vikas Bhawan, which accommodates the decentralized district rural development, agricultural, educational, and social welfare... a47095ffa1 == History == a47095ffa1
