In the Aleinu, it refers to the eradication of idolatry. In midrash, it often refers to divine action to balance and sustain the world, especially in relationship to Nature. In Lurianic Kabbalah, the "repair" is mystical: to return the sparks of Divine light to their source, employing ritual performance. However, it is only much later in Kabbalah that this concept is applied to tikkun olam, rather than to the repair of a particular world or sefirah among the infinitely many worlds beyond the physical world. In the modern period, the Lurianic understanding of cosmic repair provided a mythos to inspire deep religious feelings about tikkun olam. d5c1f9731a While kindergarten (nursery school) is optional, formal education is compulsory for all children from the age of 6-7. Details vary from state to state. For example, in Bavaria, children need to attend school for a total of 12 years (of which 3 may be for an apprenticeship); while in Brandenburg, school must be attended until the end of the school year in which the pupil turns 18. Students can complete three types of school leaving qualifications, ranging from the more vocational Hauptschulabschluss and Mittlere Reife over to the more academic Abitur. The latter permits students to apply to study at university level. A bachelor's degree is commonly followed up with a master's degree, with 45% of all undergraduates proceeding to postgraduate studies within 1.5 years of graduating. While rules vary (see → § Tuition fees) from Land (state) to Land, German public universities generally don't charge tuition fees. d5c1f9731a Features of early mobile phone messaging encouraged users to use abbreviations. 2G technology made text entry difficult, requiring multiple key presses on a small keypad to generate each letter, and messages were generally limited to 160 bytes (or 1280 bits). Additionally, SMS language made text messages quicker to type, while also avoiding additional charges from mobile network providers for lengthy messages exceeding 160 characters. d5c1f9731a SMS language is similar to telegraphs' language where charges were by the word. It seeks to use the fewest letters to produce

ultra-concise words and sentiments in dealing with the space, time, and cost constraints of text messaging. It follows from how early SMS permitted only 160 characters and that carriers began charging a small fee for each message sent (and sometimes received). Together with the difficulty and inefficiency... d5c1f9731a Beginning in the twentieth century, the English term propaganda became associated with a manipulative approach, but historically, propaganda had been a neutral descriptive term of any material that promotes certain opinions, ideologies, or concepts. d5c1f9731a == History == d5c1f9731a
