A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. You can use the list to generate your own lists in whatever language you're learning and to test yourself 19ed5854b5

Ear piercing and nose piercing have been particularly widespread and are well represented in historical records and among grave goods. The oldest mummified remains ever discovered had earrings, attesting to the existence of the practice

more than 5,000 years ago. Nose piercing is documented as far back as 1500 BCE. Piercings of these types have been documented globally, while lip and tongue piercings were historically found in some African cultures. Nipple and genital piercing have also been practiced by various cultures, with nipple piercing dating back at least to Ancient Rome while genital piercing is described... 19ed5854b5

Body piercing The word piercing can refer to the act or practice of body piercing, or to an opening in the body created by this act or practice. Piercing implants alter the body and/or skin profile and appearance (e. practice of body piercing is subject to trends and fashions. g. golden threads installed subdermal, platinum, titanium or medical grade steel subdermal implants). It can also, by metonymy, refer to the resulting decoration, or to the decorative jewelry used. Belly button and eyebrow piercings were popular during the 1990s when the piercing trend entered Body piercing is a form of body modification involving the puncturing or cutting a part of the body to create an opening through which jewelry or implants can be worn or inserted 19ed5854b5

Surface piercing Belly button piercing: Surface piercings are piercings that are found on flat parts of the body, giving a double-pierced look that sits flat against the skin. Standard piercings have an entrance hole with an exit hole that is usually directly behind the entrance hole, whereas with a surface piercing the entrance and exit holes are next to each other on the skin surface. Pubic piercing: located in the area/ pubic bone for both men and women. Bridge piercing: located horizontally at the bridge of the nose. A surface bar follows the plane of skin, while a standard piercing is pierced through the plane 19ed5854b5

piercing has been misrepresented, as many of the myths promulgated by Doug
Malloy in the pamphlet Body & Genital Piercing in Brief continue to be
reprinted. For instance, according to Malloy's colleague Jim Ward, Malloy
alleged that navel piercing was popular among ancient Egyptian aristocrats and
was depicted in Egyptian statuary, an allegation that is widely repeated.
However, other sources deny that the historical record supports the allegation.
