Manufacturers' bra designs and styles constantly change. There is no standardized system for categorizing bras, and they are made in a wide variety of designs, including those listed here and others like bridal bra, plus size bra, vintage bra, leather bra, and belly dance bra. Many bras fulfil more than one purpose, like a balconette bra made of sheer material.

Before mass printing in the

20th century, it was common for the endpapers of books to have paper marbling. Sometimes the endpapers are used for maps or other relevant information. They are the traditional place to put bookplates, or an owner's inscription.

In North America, front yards, which normally include considerable driveway and parking space, tend to be mostly lawn even when large, but in Europe they are often treated as a flower garden and may be heavily planted. In North American suburbia, there may be no physical barriers marking the front and sides of the plot, which would be very unusual in Europe, where there are generally walls, fences or hedges on three sides of the garden.

The high-level page layout involves deciding on the overall arrangement of text and images, and possibly on the size or shape of the medium. These decisions require intelligence, sentience, and creativity on the part of the designer, and they are informed by culture, psychology, and what the document authors and editors wish to communicate and emphasize. Low-level pagination and typesetting are more mechanical processes. Given certain parameters such as boundaries of text areas, the typeface, and font size, text justification can be performed in a straightforward way. Until desktop publishing became dominant, these processes were still done by people, but in modern publishing, they are almost always automated. The result might be published as-is (for example, a residential phone book interior) or it might be adjusted by a graphic designer (as for a highly polished, expensive publication).

Book design During production, graphic artists, art directors, or professionals in similar roles will work with printing press operators to decide on visual elements—including typography, margins, illustrations, and page layout—and physical features, such as trim size, type of paper, kind of printing, binding.
