Cascade is a cultivar of hops developed in the USDA breeding program at Oregon State University by Dr. Stanley Nelson Brooks and Jack Horner. Developed during the 1960s, it was released as an American aroma variety in 1971. It originated from an open seed collection in 1956, including English Fuggle, Russian Serebrianka, and an unspecified male hop variety. In addition to appealing flavor qualities, researchers were looking for resistance to downy mildew, a threat to hop yards. Cascade was named after the Cascade mountain range that runs through the states of Washington, Oregon, California and the Canadian province of British Columbia. The hop variety was first used commercially in 1975 by the Anchor Brewing Company, which established it as a signature hop for American pale ale. The plant is now grown in various places around the United States; British Columbia and Alberta, Canada; Argentina; and in Tasmania; Victoria... c72739fbe3

Kansas City was founded in the 1830s as a port on the Missouri and Kansas rivers. On June 1, 1850, the town of Kansas was incorporated; soon afterwards, a region designated as the Kansas Territory was established. Confusion between the city and the territory of Kansas ensued, so the name Kansas City was assigned to distinguish the city from the territory. The city's growth was closely tied to westward expansion, as railroads and the Kansas City Stockyards established it as a major transportation and livestock center. c72739fbe3 ISRU could provide materials for life support, propellants, construction materials, and energy to a spacecraft payloads or space exploration crews.
