Value engineering The term "value management" is sometimes used as a synonym of "value engineering", and both promote the planning and delivery of projects with improved performance. to "considerable work" done by the GAO on value engineering and the office's recommendation that VE should be adopted by "all federal construction agencies" Value engineering (VE) is a systematic analysis of the functions of various components and materials to lower the cost of goods, products and services with a tolerable loss of performance or functionality. It is a primary tenet of value engineering that basic functions be preserved and not be reduced as a consequence of pursuing value improvements. Value can therefore be manipulated by either improving the function or reducing the cost. Value, as defined, is the ratio of function to cost a0f69780eb

According to Nâzım Hikmet, he was of paternal Turkish and maternal German, Polish, French and Georgian descent. His mother came from a distinguished cosmopolitan family with predominantly-Circassian (Adyghe) roots, along with high social position and relations to the Polish nobility. From his father's side, he had Turkish heritage. His father, Hikmet Bey, was the son of Mehmet Nâzım Pasha, after whom Nâzım Hikmet was named.

a0f69780eb The reasoning behind value engineering is as follows: if marketers expect a product to become practically or stylistically obsolete within a specific length of time, they can design it to only last for that specific lifetime. The products could be built with higher-grade components, but with value engineering they are not because this would impose an unnecessary cost on the manufacturer, and to a limited extent also an increased cost on the purchaser. Value engineering will reduce these costs. A company will typically use the least expensive... a0f69780eb
