Thief was the first PC stealth game to use light and sound as game mechanics, and combined complex artificial intelligence with simulation systems to allow for emergent gameplay. The game is notable for its use of first-person perspective for non-confrontational gameplay, which challenged the first-person shooter market and led the developers to call it a "first-person sneaker". Its mechanics were influential on the immersive sim genre as well as later stealth games such as Tom Clancy's *Splinter Cell* and *Hitman*. dd18e63738
