

What Is Decision Support System

INTERVENTION These systems use computer and communication technologies to formulate, process, and implement a decision-making task and can be considered a kind of intervention technology that helps overcome the limitations of group interactions.

DESIGNER The technical designer might be a computer specialist or a consultant from outside the company and may use a commercial DSS package or write the system's code from scratch.

ISSUES A managerial designer defines the management issues in designing and using a DSS.

ROLES To design, implement, and use a DSS, several roles are involved. These include the user, managerial designer, technical designer, and model builder.

Interactions

Drought Monitoring

MODEL BASE The model base component includes mathematical and statistical models that, along with the database, enable a DSS to analyze information.

INTELLIGENCE In the intelligence phase, a decision maker (e.g., a marketing manager) examines the organization's environment for conditions that need decisions.

Spherical Videos

SENSITIVITY This enables you to apply different variables, such as determining the maximum price you could pay for raw materials and still make a profit.

MODEL BASE The model base component includes mathematical and statistical models that, along with the database, enable a DSS to analyze information.

ISRO

RESOURCES Some DSSs can be developed from resources already available in the organization, which can reduce costs, but many require new hardware and software.

ISSUES A managerial designer defines the management issues in designing and using a DSS.

RESOURCES Some DSSs can be developed from resources already available in the organization, which can reduce costs, but many require new hardware and software.

MODEL BUILDER A model builder is the liaison between users and designers. For example, during the design phase, the model builder might explain users' needs to the managerial designer or technical designer.

Intro

IMPLEMENTATION In the implementation phase, the organization devises a plan for carrying out the alternative selected in the choice phase and obtains the resources to implement the plan.

Architecture

Air Quality Management

COMMUNICATION This is important to ensure that key decision makers are involved in designing the MSS.

MODEL BUILDER A model builder is the liaison between users and
