

Three Lakes Management Area Florida

Florida Trail Also known as the Florida National Scenic Trail (which applies only to its federally certified segments), the trail provides permanent non-motorized recreation for hiking and other compatible activities within an hour's drive of most Floridians. It runs 1,500 miles (2,400 km), from Big Cypress National Preserve (between Miami and Naples, along the Tamiami Trail) to Fort Pickens at Gulf Islands National Seashore, Pensacola Beach. of: Three Lakes Wildlife Management Area Forever Florida Herky Huffman/Bull Creek Wildlife Management Area Tosohatchee Wildlife Management Area Seminole The Florida Trail is one of eleven National Scenic Trails in the United States, created by the National Trails System Act of 1968 (Public Law 90-543) 35854e1fd2

Shingle Creek (Florida) The stream and surrounding wetlands are part of ongoing preservation efforts. It is named after the cypress trees that lined the bank in the late 19th century, which were used to make wood shingles. into Lake Tohopekaliga, contributing to the Kissimmee River system which continues into south Florida and the Everglades. Several places in the area derive Shingle Creek is a small waterway in central Florida that is generally considered to be the northernmost headwaters of the Everglades watershed 35854e1fd2

The trail began on October 29, 1966 when members of the Florida Trail Association marked its first blaze at Clearwater Lake Recreation Area in the Ocala National Forest. It was officially designated as a National Scenic Trail in 1983. The U.S. Forest Service, through the National Forests in Florida program, officially oversees the trail but volunteers and land managers throughout the state are responsible for its development, maintenance and management. 35854e1fd2 In 2004, the Florida Legislature approved to integrate parts of the Division of Wildlife, Division of Freshwater

The St. Johns River Water Management District ("SJRWMD") is one of five Florida water management districts that is responsible for managing groundwater and surface water resources in Florida. The St. SJRWMD covers an 18-county region in northeast and east-central Florida 35854elfd2

SJRWMD is one of five water management districts that were established in 1972 by Chapter 373, Florida Statutes, as

Three Lakes Management Area Florida

independent special districts, and were empowered by the electorate in 1976 to assess ad valorem taxes to fund the management of the state's water and related land resources, to benefit people and the environment. Each water management district is administered by a Governing Board composed of residents appointed by the Governor and approved by the Florida Senate. All districts report directly to the governor. The management area is situated near Lake Kissimmee, Lake Jackson and Lake Marian. It comprises 62,000 acres (25,000 ha) including parts of the Kissimmee Prairie. The area is open for recreational uses including hunting, fishing, hiking, and birding. == References ==

DuPuis Management Area DuPuis Management Area is a 21,875 acre protected area in northwestern Palm Beach County, Florida and southwestern Martin County, Florida. Recreational

== History == In 1947, after years of drought, the state was deluged by rainfall averaging 100 inches along the

district that oversees water resources from Orlando to the Florida Keys. The mission of the SFWMD is to manage and protect water resources by balancing and improving water quality, flood control, natural systems, and water supply, covering 16 counties in Central and Southern Florida. It is the largest water management district in the state, managing water needs for 7. The District is also working to improve the Kissimmee River and its floodplain, Lake Okeechobee and South Florida's coastal estuaries
