Chism was not selected in the 2010 NBA draft, but received summer league invitations from the New Jersey Nets and Sacramento Kings. 30c679d956 The symptoms of strain are pain and interference with activities and difficulty generating strength due to pain. The actual strength of the muscle is not affected unless there is a complete rupture. The signs of a strain include tenderness and pain with stretch of the muscle. Contusion, and swelling are uncommon because of the muscles deep anatomical location. A strain can range from mild overstretching to severe tears, depending on the extent of injury. 30c679d956 One theory for this is the fact that each of the two heads are innervated by different branches of the sciatic nerve. In states of fatigue or when the muscle is not fully warmed up, uncoordinated firing of

the nerves may cause the muscle to contract inappropriately during movement, leading to injury. Biceps femoris tendon avulsion may also be associated with an avulsion fracture which occurs when a piece of the bone is pulled away with the tendon, during forceful contraction. 30c679d956 Born in Jackson, Tennessee, Chism was the focus of the Volunteers' offense during his senior season.
